## Economic Overview

3/31/2016

The Federal Open Market Committee (FOMC) maintained the Fed Funds target range of 0.25% - 0.50% (actual Fed Funds are trading +/-37 bps). The March FOMC Meeting Statement (and subsequent releases) indicated concerns about economic growth prospects and reported lower projections than previously set. The futures market anticipates limited probability of additional rate increases prior to December. International concerns dominate the uncertainty. US data reflects continuing, modest US growth. The Yield Curve flattened due to the longer-term, lackluster worldwide expansion outlook. Taxable municipal bonds or CDs offer the best interest earnings opportunity, if available.
